

August 5, 2020

Welcome families! We are looking forward to a great school year. My name is Ms. Mejia and I will be providing special education services for your child this school year. I am very eager to work with you and your child and look forward to our collaboration. I have worked with your students last year and have grown fond of them all. I miss all of my students and hope they and their families are doing well during these challenging times. I have been attending multiple training sessions to grasp the foundational skills for distance learning as this will be our approach to start off the school year. This journey will be new for us all, but I look forward to working with the students virtually as well as being able to help parents and students whenever needed.

The students will be utilizing a new program called Canvas that the Richland staff has been working towards to accommodate all learners virtually. The first day of instruction will take place on zoom and I will attach a link, meeting ID code, and password to access the zoom meeting. This first day, I will provide an overview on how to utilize the online applications that we will use for distant learning. Virtual learning will take place through an application called Zoom that we began to familiarize ourselves with at the end of last school year. This will be our immediate source of virtual learning/teaching. I will be reaching out via phone calls and Classdojo to provide additional support and information. If you have any questions please feel free to contact me. This journey is new to us all, but I will do my best to ensure that I am able to provide as much support and information as possible to smooth the students transition to distant learning.

Please feel free to call me to discuss questions or concerns.

Thank you,
Ms. Mejia
